PROFESSIONAL SUMMARY

Certified Legal Nurse Consultant with 19 years of healthcare experience, clinical and administrative experience, specializing in long-term care, rehabilitation, memory care, and elder abuse/neglect cases. Provides attorneys with clear, defensible medical analysis, causation insight, and expert-level interpretation of complex records. Known for identifying deviations from standards of care, regulatory failures, and injury patterns that directly impact litigation strategy.

KEY DIFFERENTIATORS

Advanced Clinical & Administrative Expertise Master's-prepared nurse with deep understanding of how staffing, policies, and administrative decisions influence patient outcomes and causation.

Specialized Geriatric & Memory Care Expertise Thirteen years in geriatrics, sub-acute rehab, long-term care, and dementia care. Skilled at identifying subtle red flags and deviations from expected standards.

Regulatory & Investigative Strength Experienced in department of health audits, fall and injury investigations, infection control oversight, and quality assurance leadership.

Dual Perspective: Bedside RN & Director of Nursing Managed 100+ staff and oversaw clinical operations, connecting frontline care with system-level accountability.

Certified Legal Nurse Consultant + Member of National Alliance with access to 3,500+ nurse consultants and reputable medical experts for testimony and case support.
